H2O Delivery - Mechanical

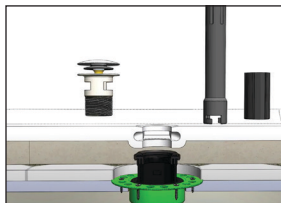

## How Does It Work?

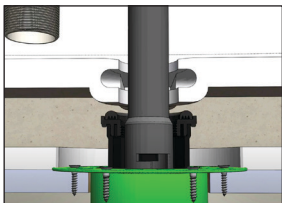

**Step 1:** Install Deck Flange

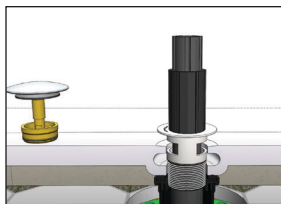

**Step 2:** Measure distance from bottom of the tub to the floor; cut tail piece to length

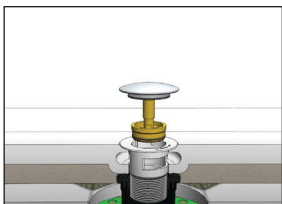

**Step 3:** Slide tub and align drain holes

**Step 4:** Using the long tool, pull the tail piece to create seal underneath the tub

**Step 5:** Thread the trim through the drain hole and tighten with smaller tool

**Step 6:** Install the drain stopper

## Tub Docking Station - Freestanding Tub Drain Rough-In with Trim - Complete Kit

### BDWOF-DS

The Mountain Plumbing Docking Station is the ultimate solution to quickly and easily install a freestanding bathtub.

- EZ-Click™ tub drain with brass tailpiece
- ABS and PVC adapter kits included
- Asymmetrical metal deck flange provides easier installation in tight spaces
- Removable drain stopper allows for easier cleaning
- For freestanding tubs with integrated overflow and 2" drain hole

### Docking Station Benefits:

- Easier to install when compared to similar products from our competitors.
- Does not require the tub to be placed on its side (which prevents the possibility of the tub being scratched).
- Product includes the drain; competitors sell this separately.
- Drain is removable after installation without removing the entire tub.
- Removable drain plug with hair catcher for easier cleaning.
- Plug top is removable to allow for easy access to snake the drain line.
- Tub can be water tested and then easily removed to store in a safe place to avoid damage.

*Installing a freestanding tub the traditional way isn't super complicated, but it is cumbersome and a lot can go wrong.*

### The Old Way

Must **tilt tub on side and lift** to connect tailpiece - **increases risk of scratches and cracks**

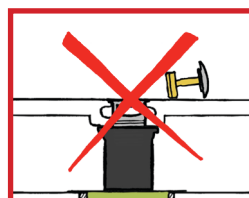

**High damage risk** when **lifting and lowering** tub to install

**Lifting and lowering** installation **requires more labor** and **adds cost** to project

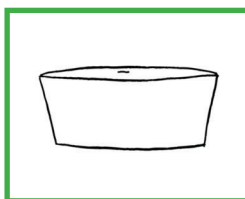

**Impossible to snake** without **removing tub** completely to gain access

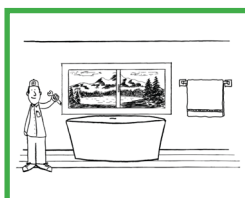

### Docking Station Way

**No tilting or lifting required** to attach tailpiece before placing tub - **decreases risk of scratches and cracks**

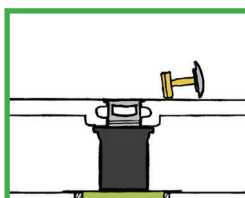

**Low damage risk** because **no lifting or lowering** required for tub installation

**Sliding tub into place** to install **requires less labor** and **helps control cost** of project

**Removable clicker drain** allows easy access **to snake drain and clear clogs**
